

# STEP-BY-STEP INSTRUCTIONS

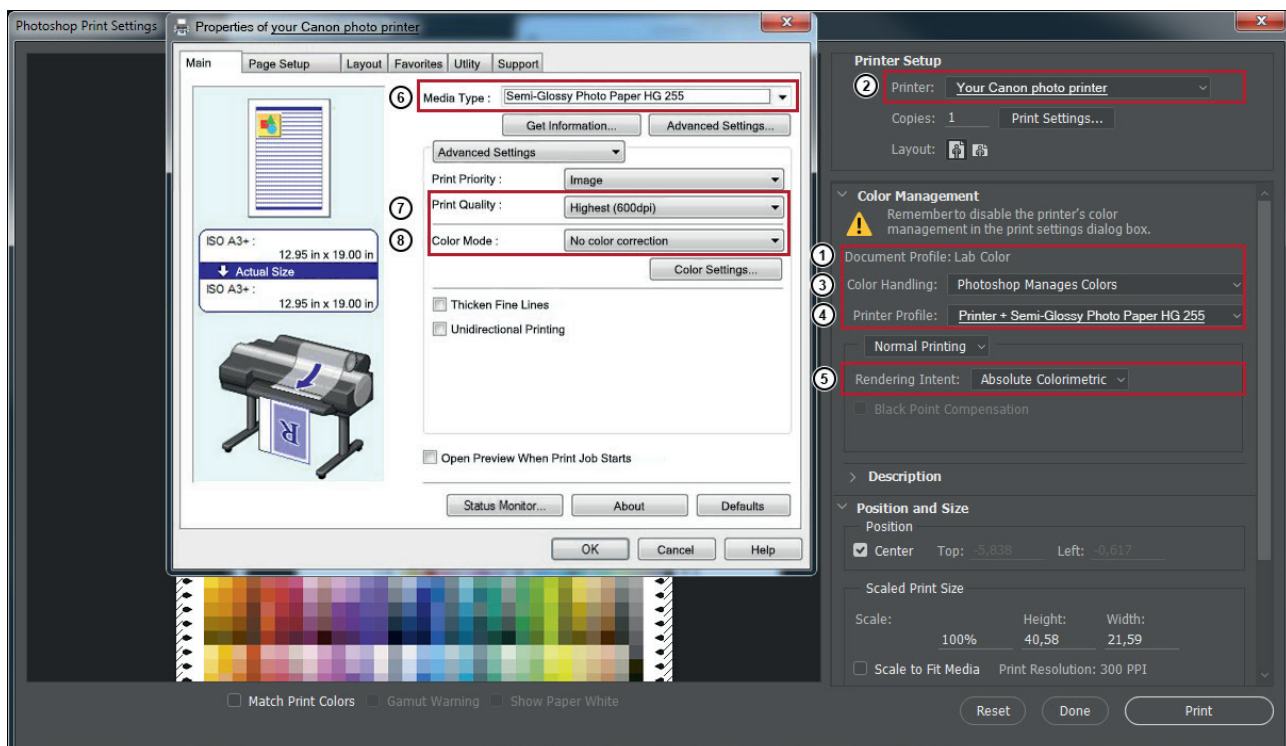

## PHOTOSHOP: PRINT SETTINGS FOR LAB COLOURS

Before you start, calibrate your printer to PANTONE® VIBRANT by Felix Schoeller and ensure you are using the best and most up-to-date version of everything (firmware, printer drivers etc.). Create your file in LAB colour mode. Please follow the steps below and select the highlighted print settings for the best possible print results (You can leave all other settings unchanged or select individual ones as required):

### Photoshop print settings for your Epson photo printer

### Photoshop print settings for your Canon photo printer

**Any questions?** If so, please contact your dealer for further information.
